

Are you the senior software engineer

we're looking for?

Your job

A senior software engineer at Opinion Process Engine is responsible for executing a variety of tasks within the scope of industrial automation. You will build applications and develop concepts and technical architecture that comply with the highest standards in automation. You have in-depth knowledge of frequently used PLC and Scada systems.

The senior software engineer works in close collaboration with our customers, advises them and analyses their needs to design advanced technical solutions. You support large sales projects by developing the appropriate solutions and drawing up budgets.

You contribute to automation projects in the Netherlands and abroad, mostly at multinational companies in the food, pharmaceutical and chemical industry. Among our clients are FrieslandCampina, DSM, Dow Chemical and Unilever.

Your profile

You act as the lead engineer for a whole project team and guide them from technical concept to functional solution. You have an academic education level and are a strategic thinker with a hands-on attitude and at least 5 years experience in process automation. In-depth knowledge of PLC and Scada systems is a must. Furthermore you are familiar with MES solutions. You have a great track record in industrial automation in the food, chemical or pharmaceutical industry.

We highly value efficient communication (also in English) and a proactive attitude. You love creating solutions that exceed our customers' expectations and are able to do so in close collaboration with them. You also enjoy working in a diversified environment.

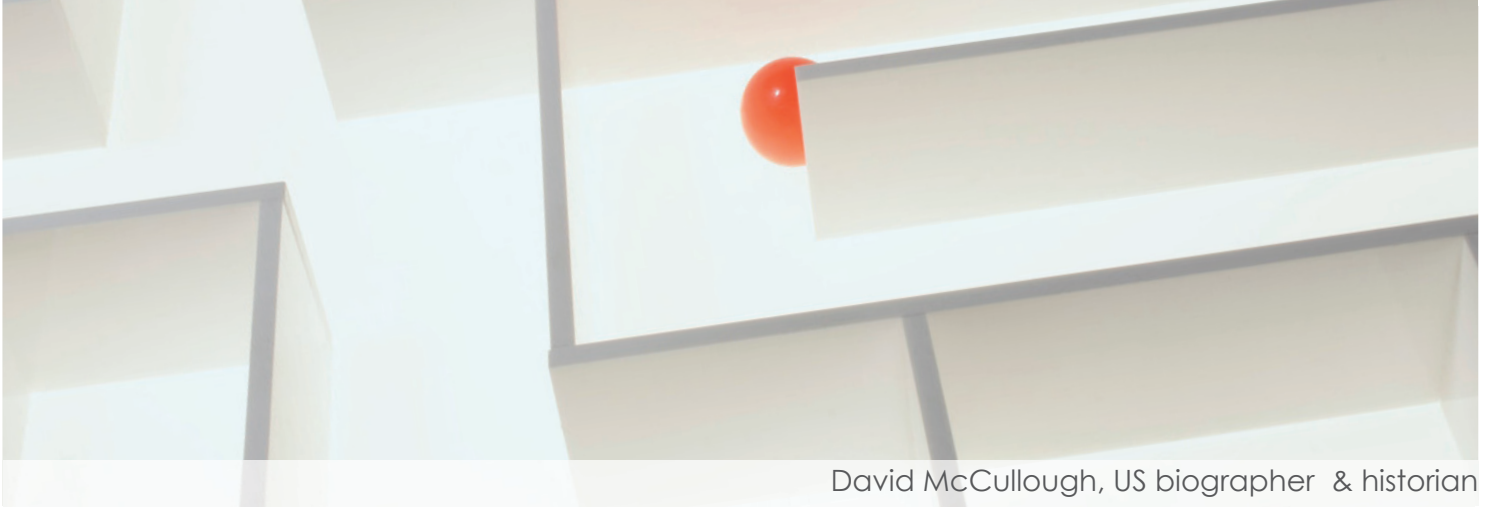

Our offering

Opinion Process Engine is part of Opinion Technology, a division of the Opinion Group. The Opinion Group is an ambitious international organisation that keeps growing, even in times of economic recession. We are committed to attracting and maintaining a dedicated team by providing a satisfying work environment, valuing diversity, and offering excellent salary and secondary benefits.

We highly value a positive work culture and offer our employees lots of flexibility. All our employees work in close collaboration so that each of them realizes a benefit from working together.

Ultimately, what we want from you is: commitment, high quality, high value, flexibility, customer-friendliness, optimism, the ability to learn fast, eagerness to share your knowledge and experience and willingness to work in a small team with big ambitions. Last but not least, we want you to enjoy what you do.

Real success is finding your lifework in the work that you love*

About Opinion Technology

Innovation is increasingly important for sustaining business growth, but ever more difficult to achieve because of fierce competition. We strongly believe that information technology is a critical element to accomplish innovation. The Opinion Group therefore has gathered a number of companies that are strictly focused on developing breakthrough technologies under the name Opinion Technology.

We do not believe in technology as a goal in itself, but rather as a means to achieve goals. Because we understand your needs with regard to strategic innovation, we can develop technologies that address those needs. In a way, we are technology-driven but we always take into account your actual needs and demands.

About the Opinion Group

The Opinion Group is a premier organization, which offers high-end solutions and sector-specific services for food manufacturers, retailers, suppliers and other industry players. We offer world-class capabilities in the area of sensory research and lab analyses, consulting and process engineering. We cover a broad spectrum of disciplines and specialties, from product development and innovation to food labeling, product specification and quality audits.

The companies that make up the Opinion Group all share market knowledge, experience and technological knowhow. We can work on a project base executing a client-specific request, or offer long-term, totally integrated solutions. Whatever the work we do, we are always guided by principles of quality, reliability and commitment to excellence.
